

Wow, what a year so far!

The SSA would like to thank parents, staff, the community and local businesses for the amazing amount of £610 that was raised at the Easter Bingo. This brings a total since September of £3417.25. Here's how some of the money has benefited the pupils...

The SSA has donated **£263** for starter equipment for a new Building and Construction course. The photo shows a Y11 pupil working on his electronics module. They will also work on their painting and decorating skills so the SSA have bought wire, sockets, switches, pliers, paintbrushes and paint.

The SSA has donated **£200** to supply Year 7 Postcards for pupils to send to their primary school to let them know how they are settling in.

We have also donated **£180** to buy more Ordnance Survey maps and a new cooker to use on the Duke of Edinburgh expeditions.

The SSA has donated **£199** to buy reward postcards and certificates for the Modern Foreign Languages department to be used across all year groups.

The SSA has bought an Air Track for students to use to help them to discover the fascinating world of how things move and collide in Physics. This is an essential piece of equipment for the new GCSE in Science. This piece of equipment has cost **£365**, but is well worth it for our next generation of scientists.

The biggest purchase the SSA has made for a while is to replace the History classroom's furniture at a cost of **£1388**. This has made a massive impact on creating the right environment for learning.
