

Mrs Hayley Athorne – Staff Governor

I have worked at The Snaith School for almost 10 years; I started as a Teacher of English then took the role of Lead Teacher for Health and Social Care in my second year.

Alongside my teaching and management commitments, I have also project managed a team of Wellbeing Ambassadors and have created a Wellbeing Garden at the school. I am passionate about wellbeing and ensuring students' pastoral needs are met.

I have taken on the role of School Governor to understand how the school governing body operates and I am eager to provide a teaching member of staff's perspective.
