

February 2026

Dear Parents/Carers,

National Careers Week is taking place from 2nd to 5th March. We started early this year, and during our first week back your child will have been talking about what a career is, exploring vocational learning options, and understanding how the subjects they study in school help develop skills that connect to the world of work.

Next week, Year 10 will be learning how to create an effective CV, Year 8 will be exploring a variety of career sectors, and Year 9 will be understanding the difference between hard and soft skills.

For parents who would like to learn more about careers, useful information is available on the following websites:
