
Dear parent/ carer,

As you are aware, due to the impending NEU strike action, we have had to make the difficult decision to partially close school on Tuesday 2nd May. As a result, school will not be open to Year 8 students on this day. Please find below appropriate activities that can be completed at home. If your child has any difficulties with accessing these resources at home due to a lack of IT equipment, please don't hesitate to contact school and we will try to assist.

Maths

Pupils have been working on Probability. They can use this link to Oak National Academy to review some of the key concepts:

https://classroom.thenational.academy/lessons/theoretical-probability-and-relative-frequency-64w36r?from_query=probability

Additionally, they can use Maths Watch for any extra revision they would like to do on the probability

English

Work will be set on Teams around the context of Animal Farm, the novel they are studying this term.

Science

In science students can use the following links to revise acids and alkalis and test themselves using the quizzes. They may wish to make revision notes, create a mind map or flashcards to help them with their retrieval of key information within the topic.

[Acids and alkalis - KS3 Chemistry - BBC Bitesize](#)

Pupils can also use the time to complete any homework or read their book from the library.

Once again, we are sorry for any disruption this may cause and thank you for your ongoing support and understanding.

Yours faithfully,

M J Blackledge
Headteacher
